Profile

Senior Business Development Manager and financial services professional with extensive experience across banking, financial inclusion, product development and digital transformation. Experienced in B2B consultative business development, including prospecting, client meetings, proposal development and commercial follow-up. Skilled in identifying business opportunities, understanding institutional needs and translating customer insights into actionable consulting recommendations.

Contributed to engagements with financial institutions and fintechs, including Banorte, MercadoPago, Banco Azteca and Santander, addressing digital banking experiences, customer pain points, communication strategies and credit product adoption opportunities.

Combines financial services expertise with client relationship management, cross-functional project coordination and functional software testing. Maintains professional relationships across the financial services sector and is proficient in Salesforce and HIVE for commercial follow-up.
