## Product Development Manager

Feb 2015 - Jun 2019

Compartamos Banco S.A. Institución de Banca Múltiple, Mexico City, Mexico

- Acted as Product Owner for four banking products, defining, coordinating and supervising the full product-development lifecycle from concept through implementation, launch and follow-up.
- Defined product strategy, value proposition, business requirements, business cases, feasibility assessments and implementation plans aligned with business objectives and customer needs.
- Led multidisciplinary teams across Business, Technology, Operations, Legal, Compliance, Risk, Finance and Marketing. Directly managed teams of 2-3 people while coordinating larger cross-functional groups.
- Coordinated solution design, technology development, User Acceptance Testing (UAT), production readiness and go-to-market activities.
- Led governance meetings and executive committees, managing priorities, risks, dependencies and stakeholder alignment.
- Monitored post-launch performance, business KPIs and customer feedback, driving continuous product improvements.

## Product Manager

Jun 2013 - Feb 2015

Banco Azteca S.A. Institución de Banca Múltiple, Mexico City, Mexico

- Managed financial-product performance and follow-up, identifying strategies to attract and retain customers.
- Led customer research, competitive analysis and product validation to identify market opportunities and improve customer experience.
- Following an interest-rate change in investment products, identified approximately MXN 50M in weekly outflows. With no dedicated budget, conducted branch-level customer research and developed a debit-card upgrade strategy for the Azteca Creciente investment account.
- The strategy reduced weekly outflows from approximately MXN 50M to MXN 20M, a 60% reduction in the weekly loss.
- Presented findings, product recommendations and business implications to executive stakeholders and coordinated implementation with multidisciplinary teams.

## Commercial Strategy Manager

Nov 2009 - Jun 2013

Banco del Ahorro Nacional y Servicios Financieros S.N.C., Mexico City, Mexico

- Developed commercial strategies to increase product adoption, customer acquisition and business growth.
- Managed follow-up of financial-product performance and identified strategies to attract and retain customers.
- Designed and executed sales campaigns and incentive programs to improve commercial performance across the branch network.
- Monitored product KPIs, commercial performance and sales trends, identifying opportunities to improve business results.
- Prepared executive reports and performance dashboards to support strategic decision-making and coordinated initiatives across Commercial, Operations, Technology and Product teams.

- Monitored product KPIs, commercial performance and sales trends, identifying opportunities to improve business results.
- Prepared executive reports and performance dashboards to support strategic decision-making.
- Evaluated business opportunities and recommended actions to optimize product performance and commercial effectiveness.

**Deputy Director Legal and Financial**

**Apr 2008 - Nov 2009**

Secretaría de Comunicaciones y Transportes., Mexico City, Mexico

- Coordinated strategic projects, ensuring alignment across multiple stakeholders and government departments.
- Monitored project milestones, deliverables, risks and performance indicators to support timely execution.
- Prepared executive reports, presentations and analysis to support management decision-making.
- Collaborated with cross-functional teams to improve operational processes and project execution.
- Tracked project dependencies and implementation progress, proposing corrective actions when needed.
- Supported planning activities and coordination of strategic initiatives across the organization.

**Business Support Coordinator**

**Oct 2004 - Feb 2006**

Citibank., Barcelona, Spain

- Served as the primary operational contact for debit card services, supporting branch offices across Spain and resolving complex operational issues.
- Participated in the planning and execution of credit card marketing campaigns to support product growth and customer acquisition.
- Coordinated a team of 20 testers during migration to the bank's new HTML-based core banking platform, ensuring testing activities were completed on time and according to quality standards.
- Resolved operational issues and removed blockers affecting the testing team, enabling continuous progress and minimizing project delays.
- Consolidated testing results, tracked defects and prepared executive status reports for the project manager.
- Collaborated with Business, Operations and Technology teams to ensure successful delivery of strategic technology initiatives.
